

Principal's Message – December, 2020

Dear parents,

Greetings and Good wishes of the season.

The covid has left us with lots of uncertainties especially as the board exams are approaching, children have not seen the school and it is almost a year.

Yet we are sure of one thing, Board exams will be. The school is, as informed before in September, is ready to have a pre-board in school with the permission of the parents and the willingness of the students to cooperate, with the guidelines of the Covid-19 and the instructions of the school. The school will do its preparation if you are convinced, do register for the exam; if sick don't come.

Also the practicals will be held and dates will be given later.

We are continuing with the online classes, exams are over, almost everyone participated in online classes and exams. We are all waiting for Court's decision, for the fees; it will come but we are going through the most acute period where we need your help today. Request you all to pay the fees so that we are able to serve you better. There are some parents who are understanding and generous. Thank you very much.

With Blessings of Christmas and a Happy New Year.

Regards

Principal
